Dashboards and Presentation Design User Guide

Dashboard vs. Presentation At first glance, the obvious difference between dashboard and presentation is that while a dashboard is an organized collection of charts usually shown together, a presentation is usually given one or two charts at a time.

How to Make a Dashboard in PowerPoint | Your Business

File Type PDF Dashboards And Presentation Design User Guide

Information dashboards are easy to design poorly, because developers can grab a lot of irrelevant data and display it badly. Therefore, many opportunities exist for UX professionals to apply user-centered design principles to make dashboard data more relevant to users and provide graphic displays that communicate more effectively.

Dashboards And Presentation Design User Guide

Business dashboards are now driving forces for visualization in the field of business intelligence. Unlike their predecessors, a state-of-the-art dashboard builder gives presenters the ability to engage audiences with real-time data and offer a more dynamic approach to presenting data compared to the rigid, linear nature of, say, Powerpoint.
