Shadow Web by N. M. Browne | Waterstones

I was intrigued when "Shadow Web" was recommended to me, curious to read another book by N. M. Browne as I remembered really loving "The Warriors of Alavna" when I was younger. I've come away a little bit disappointed. The premise is superb and the world of "other London" colourfully and richly painted.

Then, about a year ago, somebody introduced me to the “Shadow Web”—a sort of secret layer of the Internet that you will never find by Googling or looking up message boards. There are no “in links” from the surface web to the shadow web. And no, this isn’t the “deepnet”, in case you were thinking about that. Not some website with gore videos of freak accidents, I’ve seen those ...

The "shadow web", then, would be the windowless cellar at the end of a passage behind a hidden door in that very haunted house. Before I go on, I wanted to clear something up. When I left the comment on the original post I mentioned that I frequently visited the dark web, and somebody left a comment calling me a monster. I'm not. I don't go there to look for scam victims or to distribute kiddy ...
